RE: Verizon Wireless Communications Facility at 2701 C Street SW, Auburn, WA - VZW Site SEA Algon

Dear Mr. Catchpole,

Verizon Wireless (VZW) needs to make minor modifications to the existing VZW Wireless tower located at the GSA property in Auburn, WA, VZW Site SEA Algon. VZW operates the facility under the Lease of Government Property "ground lease" which set forth VZW's lease area and describes the subject tower.

Please be advised that VZW has no plans to expand the ground lease area or modify the existing tower height.

Therefore, VZW intends to move forward with the proposal to add one new dish on the VZW tower per the plans enclosed with this letter.

In the event that VZW does not receive any comments or concern by 8/31/14, VZW will consider the project approved by GSA.

Please contact me by phone at 253-218-9017 or email at rcardoza@ldccorp.com, if you have any project specific questions.

Thank you.

Sincerely,

Rick Cardoza
LDC, Inc., on behalf of Verizon Wireless
